

ARISTOTLE UNIVERSITY OF THESSALONIKI

The cooperation between **ESA Security Solutions** and the Aristotle University of Thessaloniki, started back in 1994.

Contract includes static guarding stationary security and patrols inside and outside the University Campus, as well as at the facilities outside Thessaloniki. In order to fulfill its mission, ESA uses a small fleet of vehicles and Motorcycles for 24/7 patrolling. A team of **200** experienced security guards, trained and certified, under the supervision of 3 duty managers and 1 project manager, covers all security needs of the University.

At the same time, electronic security systems, such as: Access Control Systems, Anti-burglar Control Systems, Fire-Security Systems and Access Control Systems in various other facilities of the University, have been installed and are monitored by **ESA 24/7** incident management station.

The security plan implemented by of **ESA**, is approved by University's Administration.

BENEFITS FOR THE UNIVERSITY

The University has significant benefits, as the guarding team consists of experienced personnel (with more than 10-year experience) which is fully accepted and respected by the University community. The security team helps the unimpeded operation of the University, both in terms of Academic procedures and in terms of protecting the cultural heritage of the site (Traditional Museum, Biblical Museum, Zoology Museum etc.) The security team is solid and fully engaged to the security scope of the contract, protecting human life and property in the biggest University in Greece.
