

GREEK RAILWAYS ORGANIZATION (OSE)

The cooperation between **ESA Security Solutions** and OSE S.A. started back in 2004 when as member of a Joint Venture, ESA signed the contract for guarding services. The outcome of this cooperation was outstanding and resulted to a new contract in 2006 for OSE premises all over Greece exclusively from ESA.

ESA provides security services for all OSE facilities such as: Railway stations, substructure engineering works, cargo stations, maintenance and repair facilities.

ESA retains a team of more than **250** people as well as technological infrastructure and vehicles, in order to support the implementation of the large scale project of OSE. Time shifts and guarding requirements readjust orderly, according to OSE needs.

BENEFITS FOR OSE SA

OSE is highly benefited as the **ESA** personnel provides high quality services resulting to zero loss of means or goods.

At the same time a flexible planning allows OSE to deal with immediate and urgent security and safety issues without delay. **ESA** provides regularly electronic documentation of security incidents, in order to constantly update OSE security plan.
