

COSCO

The Cargo Containers Station in Piraeus, after the take-over by **COSCO** has awarded **ESA Security Solutions** (following an international bidding process) the security services of the port facilities, from 2010 up to today. In 2015, this partnership was renewed for three more (3) years.

The security project follows the **ISPS** (International Ship and Port Facility Security Code) standard according to the instructions of Port Service of Cargo Containers Station of Piraeus, located in the area of Perama in Attica.

Guards, properly trained in local conditions by **ESA**, have the responsibility to control the entrance and exit of people and vehicles through the gates of the station as well as the guarding of trading ships 24/7.

BENEFITS FOR COSCO

ESA with its multi-year experience in providing security services for ports, according to the International ISPS Code, can guarantee the uninterrupted operation of cargo containers station in Piraeus.
